## FLAT BACKS HOTFIX

Flat Backs Hotfix are loose crystal elements with a flat reverse side that has been pre-coated with a heat-sensitive glue. These Flat Backs can be easily applied to a large range of textile carrier materials using heat to produce a durable and long-lasting crystal effect.

Flat Backs Hotfix are available in a multitude of colors, shapes, and cuts. The increased light reflection and warmer appearance of the Flat Back Rose are achieved through a special silver mirror on the reverse side.

The most innovative single item in this product group is art. 2078 XIRIUS Rose, with its most progressive and unique cut in the market: multilayer cut technology, producing the inspiring XIRIUS star design. Superior shine and rich, well balanced refraction of light redefine the market standard.

Swarovski's outstanding quality in crystal elements are underlined by highest precision in table size and diameter.

FRAMED FLAT BACKS

The Framed Flat Backs present themselves as a highly upgraded version of ringed roses: They encase a XIRIUS crystal, the most brilliant crystal on the market, and the Cabochon, the non-sparkling version, with new metal

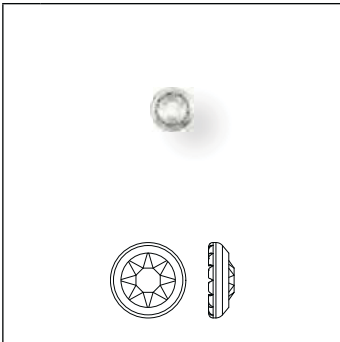

components in plating colors silver, gun metal, and gold. Both the plating quality and the glue applicability have been greatly improved.

## RIMMED FLAT BACK

While the partial metal coating of the Rimmed Flatback resonates with the desire for refined shine and lends itself perfectly to a modern puritan-inspired style, the dichotomy

of metal and crystal also meets the need to unify opposites, which elevates gender-fluid design directions to new heights.

OCEAN MYSTERIES DESIGNED  
BY CÉLINE COUSTEAU

**Design Story:** A love for the sea runs through her veins: Céline Cousteau is a celebrated filmmaker, humanitarian, and environmentalist, and, as it so happens, the granddaughter of legendary ocean explorer Jacques Yves Cousteau. She presents her first ever crystal designs for Swarovski, inspired by one of her favorite places, the depths of the ocean. Taking inspiration from nature itself

and leaving its beauty unaltered, her stunningly life-like creatures are not only captivating and spellbinding, they also draw attention toward the mysterious, mostly unseen, and unexplored world beneath the ocean's surface on which all ocean life depends. These mysteries need to be protected for future generations, both above and below the water.

DIAMOND LEAF<sup>1</sup>

Swarovski and Giorgio Armani worked together to create an exclusive crystal called “Diamond Leaf”. This Designer Edition has a fluid, organic shape reminiscent of a leaf. Precision cut facets melt into the softness of a floating, sculptural form, contrasting strength and fragility, the timeless with the ethereal.

**Giorgio Armani: “Swarovski crystal brings a touch of magic to a dress, an ethereal quality, a lustre which never fails to captivate the attention.”**
