

TRANSFERS

Transfers are ideal for Hotfix application on all kinds of textiles. They are available in a large range of motifs and numbers of rows, which are made up of different articles from the Flat Back Hotfix assortment. Featuring designs from our in-house design team, they can include XIRIUS and XILION Roses, or Creation Stones, as well as Metallics and Cabochons.

With Transfers Unlimited, Swarovski presents a spectacular new production technology that makes it possible to combine up to 18 different elements in a single motif, doubling existing design possibilities. The Transfer Motifs offered are divided in two categories: Standard Collection and Crystal Inspiration Collection, meeting all needs in the targeted segments, such as womenswear and sportswear, casualwear, and footwear.

OCEAN MYSTERIES DESIGNED BY
CÉLINE COUSTEAU

Design Story: A love for the sea runs through her veins: Céline Cousteau is a celebrated filmmaker, humanitarian, and environmentalist, and, as it so happens, the granddaughter of legendary ocean explorer Jacques Yves Cousteau. She presents her first ever crystal designs for Swarovski, inspired by one of her favorite places, the depths of the ocean. Taking inspiration from nature itself

and leaving its beauty unaltered, her stunningly life-like creatures are not only captivating and spellbinding, they also draw attention toward the mysterious, mostly unseen, and unexplored world beneath the ocean's surface on which all ocean life depends. These mysteries need to be protected for future generations, both above and below the water.

DIAMOND LEAF¹

Swarovski and Giorgio Armani worked together to create an exclusive crystal called "Diamond Leaf". This Designer Edition has a fluid, organic shape reminiscent of a leaf.

Precision cut facets melt into the softness of a floating, sculptural form, contrasting strength and fragility, the timeless with the ethereal.

TRANSFERS

A special motif is any individual design created by the customer that differs to the Transfers Standard, Crystal Inspiration, or Special Collections. This service opens up an abundance of customization possibilities. You also no longer need to set your motif by hand. You can rely on Swarovski's longstanding experience and design expertise and can order a convenient, ready-to-apply design. A range of customization options for existing motifs is available (see "Customization Possibilities" below). You can also submit design sketches that meet your special requirements – such as a brand image or an image for a particular sales campaign or garment. This will then be made up according to your specifications using Computer Aided Design, which means that adjustments can be made easily according to your needs.

CUSTOMIZATION POSSIBILITIES

- Change of elements in an existing motif
- Change of size of an existing motif
- Logos or brand names
- Creation of pieces or rows
- Up to nine colors possible per Transfer motif

For Transfers Unlimited

- Up to 18 elements possible per transfer motif
- max. motif size: 470x205 mm

ORDERING PROCESS

Send your request with the drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements for the desired motif. Please also indicate which product group your special motif applies to (Transfers, Crystal-it, Crystal Mesh etc.). You will then receive a quotation including your article number, minimum order quantity, price, and the line drawing of your special motif in PDF format. Please contact your Swarovski sales office again if any changes are required. Your special motif will be produced and delivered following your confirmation.

SPECIAL MOTIF SERVICE

PLEASE NOTE

Please always submit the drawing of your desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reproduce. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP, or DXF format will ensure that we have clear data to work with. These can also be sent via email or on CD-ROM. When the sketch is submitted as a hard copy by fax or e-mail, please include a scale legend (e.g. copy/scan with ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

Special productions are generally offered to all our customers if these are deemed to be feasible and comply with our General Terms and Conditions. Please note that ordering a design does not grant exclusive production of this design to the customer.
