CRYSTAL MESH

Crystal Mesh is a flexible metal mesh carrier with integrated loose crystals. The product is available in a wide range of colors and casings, either as a Hotfix version, which can be applied using heat, or as a No Hotfix version that can be hand- or machine-sewn. Customized solutions are possible and customers are able to choose special motifs incorporating up to nine colors. Crystal Mesh is suitable for use in a wide range of segments such as textile and accessories.

SPECIAL MOTIF SERVICE

A special motif is a design created by the customer that differs to the Crystal Mesh Standard or Crystal Inspirations Collection. This service opens up an abundance of customization possibilities and enables you to profit from Swarovski's longstanding experience and design expertise. A range of customization options for existing motifs is available (see "Customization Possibilities" below). You can also submit design sketches that meet your special needs, such as a brand image or an image for a particular sales campaign. This will then be made up according to your specifications using Computer Aided Design, which means that adjustments can be made easily according to your needs.

CUSTOMIZATION POSSIBILITIES

– Change of size of an existing motif
– Logos or brand names
– Creation of single motifs or rows
– Up to nine colors are possible per Crystal Mesh Motif.

ORDERING PROCESS

Send your request with the drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements for the desired motif. Please also indicate which product group your special motif applies to (Crystal Mesh). You will then receive a quotation including your article number, minimum order quantity, price, and the line drawing of your special motif in PDF format. Please contact your Swarovski sales office again if any changes need to be made. Your special motif will be produced and delivered following your confirmation.

PLEASE NOTE

Please always submit the drawing of your desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reproduce. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP, or DXF format will ensure that we have clear data to work with. These can also be sent via email or on CD-ROM. If sending a sewing pattern, please include the whole pattern and not just cut-outs. When the sketch is submitted as a hard copy by fax or e-mail, please include a scale legend (e.g. copy/scan with ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

Special productions are generally offered to all our customers if these are deemed to be feasible and comply with our General Terms and Conditions. Please note ordering of a design does not grant exclusive production of this design to the customer.
